Hello Mr. Bolton,

I was surprised by your aggressive bullying behavior throughout the day today. I noticed your unprofessional behavior during the City of Tamarac Commission Meeting earlier today. Your obnoxious behavior was unprofessional and rude to everybody including your colleagues on Tamarac City Commission. Raising your voice and running around taking photos of officials as well as audience with your cell phone is disturbing and beyond the pale behavior.

At the Neighborhood District 1 Meeting tonight, I was standing in the front to video tape and document the event for our community. You took your surrogate cell phone from her; you came very close to where I was standing and took several photos of me. You are an egotistic self-centered politician, and your bullying behavior is disgusting and abhorrent.

I was talking to a lady standing in the back close to where you were standing. The same lady who you used her cell phone to take several close photos of me. The same lady who came to me earlier telling me that the audience cannot hear the sound in the back. I was perplexed by her comment, and while talking with her, I recognized that she was your surrogate who was hanging flyers on our doors at Bermuda Club condominiums back on March 25, 2024, at 4:25 PM. As I was telling the lady, I think we have met before and I recognized you from Bermuda Club Condominium's event back in March 2024, you interrupted us, and you accused me of harassing her! There was no harassment of any kind at all, and you knew it.

As I was going back to continue documenting the event, I stretched out my hand to say hello, you threw paper rapper trash in my hand. You knew very well what you have done can legally constitute an assault no matter how minor the incident was. When you realized that I was seriously upset about your insulting and demeaning action of throwing trash in my hand, you said, I thought you were taking the trash from me. This is indeed a disgusting and abhorrent bullying behavior.

Again, when you failed to bully me, you used BSO deputies to orchestrate your self-serving legalese maneuvers of crying harassment that got BSO involved. Because of your seriously miscalculated bullying behavior, I was threatened by BSO deputies to be removed from the meeting. I would venture to say that I was lucky that I was not removed from the meeting hall, and I continued documenting our Tamarac 2024 Neighborhood District 1 Meeting.

Do not forget that we are your Tamarac District 1 constituents.

Remember, Tuesday, November 5, 2024, is only 167 days away.

Sincerely,

Sami Sofia, Owner-Occupant
